
SKILLS

- **Architecture & Governance:** solution architecture, HLDs, ADRs, capability mapping, architecture reviews, TOGAF principles, target-state roadmaps
- **Cloud & Distributed Systems:** AWS, GCP, OCP/Kubernetes, microservices, event-driven architecture, Kafka, Docker, Terraform, CI/CD
- **Full Stack Engineering:** TypeScript, JavaScript, Python, Go, SQL | React, Node.js, REST APIs, GraphQL
- **Security & Regulated Platforms:** IAM, OAuth, SSO, Zero Trust, privacy, audit trails, PCI concepts, HIPAA, Responsible AI
- **Data & Observability:** OpenTelemetry, ELK, Elasticsearch, Redis, Airflow, distributed tracing, SLOs, alerting
- **Technical Leadership:** executive communication, stakeholder alignment, mentoring, code/design reviews, product partnership

EXPERIENCE

- **Royal Bank of Canada (RBC)** Toronto, Canada
Staff Software Developer & Enterprise Architect Nov 2022 – Present
 - **Architecture Strategy & Governance:** Define scalable, secure solution architectures and target-state patterns within RBC's Enterprise Architecture group; partner with principal architects, engineering, product, risk, and security through design reviews and solution certification.
 - **ASB Builder Platform – Patent-Pending:** Designed and led 0-to-1 production delivery of a full-stack architecture blueprint platform using Node.js, TypeScript, React, and REST APIs; its rules-based recommendation and auto-certification workflows map 1,000+ architecture patterns to compliant component selections.
 - **Decision Records & High-Level Design:** Lead ADRs, HLD reviews, reference architectures, security-pattern selection, and reusable implementation guidance for cloud, API, integration, IAM, resiliency, and data-handling decisions across complex solution lifecycles.
 - **Technical Capability Catalog:** Digitalised the enterprise technical reference model, cataloguing 1,000+ technologies and 1,500+ capabilities with standards and ownership metadata to support governance, modernization roadmaps, and business-technology alignment.
 - **High-Scale Regulated Systems:** Architected an OpenTelemetry-based platform using Vector, Fluent Bit, Kafka, and Logstash that ingests 150 TB/day across 10,000+ systems and enables vendor-agnostic routing, auditability, and standardized operations.
 - **Engineering Leadership:** Led 5 engineers through sprint delivery, hands-on code and design reviews, ADRs, mentoring, executive-ready demos, and cross-functional decisions across cloud, platform, product, risk, security, and architecture teams.
- **HealthCard (Acquired Startup)** Remote
Blockchain Architect & First Full Stack Engineer Aug 2021 – Jul 2022
 - **Secure Cloud-Native Product:** Built the product from scratch: React/TypeScript frontend, Node.js/Express APIs, Hyperledger Fabric verification, and AWS EKS deployment with HIPAA-aligned data handling and audit logging; the team grew to 20+ engineers before acquisition.
 - **Architecture & Delivery Ownership:** Designed real-time insurance validation and fraud-resistant trust-score workflows, containerized services, and CI/CD automation that reduced deployment cycles from days to under 30 minutes.
- **Canada Revenue Agency (CRA)** Ottawa, Canada (Remote)
IT Developer / Software Developer Co-op Apr 2022 – Nov 2022
 - **Federal Platform Modernization:** Migrated a federal tax platform UI from Apache Struts to React/TypeScript and contributed to APIs serving millions of Canadians while enforcing accessibility, security, and automated quality gates.
- **CryptoVantage** Netherlands (Remote)
Blockchain Developer Jul 2020 – Dec 2020
 - **Regulated Transaction Analytics:** Built a real-time on-chain monitoring system in Go and JavaScript with event streaming, wallet clustering, and risk scoring for 5AMLD-aligned compliance workflows.

PROJECTS

- **DCS-BBN: Blockchain-Based Cloud Storage:** Designed a distributed storage network using Solidity, Hyperledger Fabric, and zk-SNARK proofs for privacy-preserving verification; published in Springer ICMR.

EDUCATION

- **University of Toronto** Toronto, Canada
Enterprise Architecture Certification (3-semester program) Completed 2024
- **Dalhousie University** Halifax, Canada
Master of Applied Computer Science, GPA: 3.9/4.0 Jan 2021 – Aug 2022
- **Gujarat Technological University** Ahmedabad, India
B.E. Computer Engineering, GPA: 3.92/4.0 Aug 2016 – Aug 2020
