
SKILLS

- **Backend & APIs:** Java, Spring Boot, Node.js, TypeScript, Go, Python, REST APIs, microservices, asynchronous processing
- **Identity & Security:** OAuth 2.0, OpenID Connect (OIDC), IAM, SSO, fine-grained authorization, Zero Trust, TLS/HTTPS, audit logging
- **Distributed Systems:** event-driven architecture, Kafka, Redis, caching, circuit breakers, retries, API gateways, fault tolerance
- **Cloud & Delivery:** AWS, GCP, OCP/Kubernetes, EKS, GKE, Docker, Terraform, CI/CD, Linux/Unix
- **Data & Reliability:** PostgreSQL, MySQL, MongoDB, Elasticsearch, SQL, OpenTelemetry, ELK, SLOs, incident response
- **Leadership:** architecture strategy, code/design reviews, mentoring, root-cause analysis, cross-functional delivery

EXPERIENCE

- **Royal Bank of Canada (RBC)** Toronto, Canada
Staff Software Developer & Enterprise Architect Nov 2022 – Present
 - **Federated Backend Platform:** Designed and led 0-to-1 production delivery of a patent-pending enterprise blueprint platform using Node.js, TypeScript, React, and REST APIs; its rules-based engine maps 1,000+ security, integration, and infrastructure patterns to compliant services.
 - **Identity, Authorization & Integration:** Govern IAM, SSO, OAuth, API gateway, Zero-Trust, and internal/external HTTPS integration patterns for regulated enterprise solutions across AWS, GCP, OCP/Kubernetes, and on-prem environments.
 - **High-Throughput Distributed Systems:** Architected an OpenTelemetry platform using Vector, Fluent Bit, Kafka, and Logstash that ingests 150 TB/day across 10,000+ systems with governed schemas, resilient routing, replayable pipelines, and vendor-agnostic integrations.
 - **Resilience & Operational Excellence:** Define architecture patterns for caching, asynchronous processing, circuit breakers, retries, SLOs, alerting, and production readiness; lead incident triage and root-cause reviews for complex regulated platforms.
 - **Technical Authority & Mentorship:** Lead 5 engineers through hands-on code and design reviews, ADRs, testing expectations, mentoring, sprint delivery, and cross-functional decisions with product, infrastructure, security, risk, and architecture teams.
- **HealthCard (Acquired Startup)** Remote
Blockchain Architect & First Full Stack Engineer Aug 2021 – Jul 2022
 - **Secure Cloud-Native Services:** Built the product from scratch: React/TypeScript frontend, Node.js/Express APIs, Hyperledger Fabric verification, and AWS EKS deployment with HIPAA-aligned controls, audit logging, and real-time insurance validation.
 - **Architecture & Delivery Ownership:** Containerized services and implemented CI/CD automation that reduced deployments from days to under 30 minutes while improving reliability, security, and maintainability as the team scaled to 20+ engineers.
- **Canada Revenue Agency (CRA)** Ottawa, Canada (Remote)
IT Developer / Software Developer Co-op Apr 2022 – Nov 2022
 - **Enterprise Application Modernization:** Modernized a Java/Apache Struts federal tax platform to React/TypeScript and contributed to secure backend APIs serving millions of Canadians with WCAG accessibility and automated quality gates.
- **CryptoVantage** Netherlands (Remote)
Blockchain Developer Jul 2020 – Dec 2020
 - **Real-Time Transaction Services:** Built an event-driven analytics service in Go and JavaScript with Ethereum streaming, wallet clustering, and risk-scoring APIs for 5AMLD-aligned compliance workflows.

PROJECTS

- **Federated Identity Gateway:** Built a Java/Spring Boot prototype exposing REST APIs for OAuth 2.0/OIDC login, token validation, centralized entitlements, policy-based authorization, Redis caching, and auditable service-to-service access.
- **Resilient Content Router:** Designed a Kubernetes-based Java service for routing HTTPS requests across content providers with asynchronous processing, circuit breakers, health checks, and OpenTelemetry instrumentation.

EDUCATION

- **University of Toronto** Toronto, Canada
Enterprise Architecture Certification (3-semester program) Completed 2024
- **Dalhousie University** Halifax, Canada
Master of Applied Computer Science, GPA: 3.9/4.0 Jan 2021 – Aug 2022
- **Gujarat Technological University** Ahmedabad, India
B.E. Computer Engineering, GPA: 3.92/4.0 Aug 2016 – Aug 2020
