work@doshidhruv.com | +1-902-989-1274
Toronto, Canada | Open to relocate to San Francisco

SKILLS

- **Languages & Full Stack:** Python, TypeScript, JavaScript, Go, SQL; React, Node.js, Express, REST APIs, GraphQL
- **AI Product Engineering:** LLMs, RAG, LangChain, LangGraph, tool calling, embeddings, pgvector, evaluation, tracing
- **Backend & Data:** distributed systems, microservices, Kafka, PostgreSQL, Redis, Elasticsearch, event-driven workflows
- **Production Engineering:** AWS, Kubernetes, Docker, Terraform, CI/CD, OpenTelemetry, SLOs, alerting, incident response

EXPERIENCE

- **Royal Bank of Canada (RBC)** Toronto, Canada
Staff Software Developer & Enterprise Architect – Applied AI / Full Stack Nov 2022 – Present
 - **0-to-1 Product Delivery:** Built and launched a patent-pending enterprise platform with Node.js, TypeScript, React, and REST APIs, serving 1,000+ engineers and architects; authored nearly all production code and the complete recommendation engine from prototype through CI/CD and production rollout.
 - **Developer Tooling & Workflow Automation:** Encoded 1,000+ architecture patterns into real-time service recommendations and automated certification, reducing a process that took up to 45 days to approximately 110 seconds in security-constrained environments.
 - **LLM Product Engineering:** Building ASB Assist, a conversational LLM + RAG system that turns natural-language requirements into compliant architecture diagrams and service recommendations; implementing Python/LangChain orchestration, retrieval, tool integration, prompt iteration, citation validation, evaluation, guardrails, and audit trails.
 - **Reliability & Observability at Scale:** Architected an OpenTelemetry platform using Vector, Fluent Bit, Kafka, and Logstash that ingests 150 TB/day across 10,000+ systems; standardized telemetry for distributed tracing, SLOs, alerting, and production debugging.
 - **Engineering Leadership:** Led 5 engineers through planning, implementation, reviews, ADRs, testing, runbooks, and operational handoff; drove shared observability patterns across 20+ teams, reducing onboarding from weeks to days.
- **HealthCard (Acquired Startup)** Remote
Blockchain Architect & First Full Stack Engineer Aug 2021 – Jul 2022
 - **Full-Stack Product Build:** Joined as first engineer and built the React/TypeScript frontend, Node.js/Express APIs, Hyperledger Fabric verification layer, and AWS EKS deployment with audit logging; helped scale the team to 20+ engineers before acquisition.
 - **Production ML Integration:** Deployed transformer-based document classification behind inference APIs with monitoring and auditable trust-score workflows, reducing manual claims and credential review by 60%.
- **Canada Revenue Agency (CRA)** Ottawa, Canada (Remote)
Software Developer Co-op Apr 2022 – Nov 2022
 - **Modern Web Platform:** Migrated a federal tax platform from Apache Struts to React/TypeScript and contributed to backend APIs serving millions of Canadians, with WCAG accessibility and automated quality gates.

SELECTED PROJECTS

- **Enterprise Document Q&A and Evaluation Harness:** Built a Python/LangChain + pgvector RAG system with offline evaluation sets, regression metrics, prompt comparison, citation validation, and end-to-end tracing.
- **Automatic Trading System:** Built a sub-second system integrating brokerage APIs and live market streams with momentum/mean-reversion signals, automated risk controls, position sizing, and performance monitoring.
- **DCS-BBN Decentralized Storage:** Designed a peer-to-peer storage network using Solidity, Hyperledger Fabric, and zk-SNARK proofs for privacy-preserving verification; published at Springer ICMR.

EDUCATION

- **Dalhousie University** Halifax, Canada
MASc Applied Computer Science, GPA: 3.9/4.0 | TA: Algorithms, Advanced Cloud Computing Jan 2021 – Aug 2022
- **University of Toronto** Toronto, Canada
Enterprise Architecture Certification (3-semester program) Completed 2024
- **Gujarat Technological University** Ahmedabad, India
B.E. Computer Engineering, GPA: 3.92/4.0 Aug 2016 – Aug 2020
